

Ask Seanlai and Jason about retention. You'll get a knowing laugh, giant smile and an illuminating discussion about how retention goes far beyond just companies keeping employees. It's about people keeping the right people... in ALL areas of business and life.

They should know! As entrepreneurs, and by running an award winning national construction firm they've had to master the art of retention. Their passion for people propelled them to break through the status quo and study other successful leaders and companies. The remarkable patterns they uncovered and the technology they developed will have you scratching your head wondering how you ever retained people before.

But they didn't stop there! Seanlai and Jason combined these discoveries with their real-world experience to develop powerful, innovative retention strategies. As a speaking and consultant team, they show people and businesses how to connect best with the people who matter most... both inside and outside the workplace.

Described as creative and fearless, their business practices and leadership have earned a spot on the Inc. 500/5000 list, a Rising Star Award, and a feature in Forbes Magazine (just to name a few)! Seanlai serves on the board of the South Florida chapter of the National Speakers Association.
